Free Appliance Recycling Announced For Dunn County

As of January 1, 2014, the Dunn County Solid Waste Division is no longer charging a fee to recycle Freon appliances. In the past, recycling certain Freon appliances cost between \$10 and \$15. Freon appliances include refrigerators, freezers, dehumidifiers, water coolers and more. Most appliances may now be recycled for free at the Dunn County Transfer Station and Recycling Center, any Area Collection Station or the Menomonie Sears Hometown Store.

For more information please call the Dunn County Solid Waste Division at 715-232-4017 or visit their website at www.co.dunn.wi.us and search for “appliances”.
