

Online Care

Get Quick and Convenient Care Online

Looking for health care quickly without leaving home. Getting care online is a great option when you or a family member have a basic health care need like a cold, flu, pink eye, allergy and many other conditions. Online providers can diagnose, treat and write prescriptions for many routine medical conditions.

You can also save. Online care costs less than an office or urgent care visit.

When to use Online Care/E-Visits:

- During or after normal business hours, nights, weekends and even holidays.
- If you're considering the ER or urgent care center for a non-emergency medical issue.
- Your primary care doctor is not available.
- Request prescriptions or get refills.
