Recycling Intern for Dunn County

Dunn County Solid Waste welcomes a new Recycling Intern, Chelsea Wiegand. Wiegand will be a senior at University of Wisconsin-Green Bay, majoring in Environmental Policy and Planning. Born and raised in the city of Green Bay, her parents were always strict recyclers and taught her the significance of recycling at a young age. Her interest in environmental affairs stemmed from her love of outdoor activities such as fishing, biking and gardening.

This summer, Wiegand will be promoting a Crushing Campaign which will show Dunn County residents the importance of taking that extra step to crush their recyclables. Additional projects include encouraging recycling at special events and helping with restaurant, apartment building and convenience store audits.
