

## CTH J Pavement Replacement Project (410<sup>th</sup> St. – 850<sup>th</sup> Ave.)

Project Length = 14,889ft (2.82 miles)  
Estimated Project Cost \$850,000

### Typical Finished Roadway Cross Section

30ft total = 24ft Asphalt + 3ft Base Course Shoulders  
Asphalt = 3 1/2" Compacted thickness

Mix Design: Warm Mix Asphalt (4LT58-28S)  
Asphalt Total = 7,800 Tons WMA

### Base Course

Add 3" Base Course to Existing Roadway Before Pulverizing  
Total Estimated Limerock Quantities = (8,000 tons 1 1/4", 1750 tons 3/4")

### Intersections

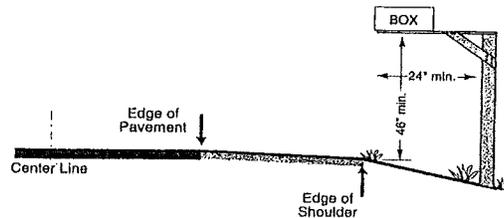

All intersections will be constructed with a WisDOT Type C.

### Culvert/Drainage Work

Replace all cross culverts with HDPE culverts on project  
Clean or Replace driveway culverts as needed  
Widen shoulders & re-slope ditches as required

### Mailboxes

Relocate mailboxes as required to meet standard height and offset

### Traffic Control

CTH J will be closed to thru traffic during construction and a detour implemented. All residents will have access to their properties during construction.

### Project Schedule

The project is anticipated to start August 3, 2020.
