- Court hearings continue to be held by Zoom, phone and/or by conference bridge.
- We have had four jury trials take place to date. Prevea Healthcare continues to assist us screening jurors and taking their temperatures upon entering the building.
- I am working with the Dunn County IT Department and our audiovisual vendor to have new audio and visual equipment installed in the Branch III and Branch IV courtrooms and the Hearing Room. The Branch I and Branch II courtrooms will receive additional microphones and the equipment racks will be relocated to a central location in the building. We are hopeful that these costs will be paid for by the Routes to Recovery funds along with COVID grant from the Dept. of Justice. If these are covered it will reduce the 2021 capital expenditures from the Courts budget.
- There are no budget concerns for 2020 at this time.

Subject: CJCC/CJC Division Monthly Update

To: Dunn County Committee on Administration and Judiciary and Law Committee Members

Greetings,

The Criminal Justice Collaboration (CJC) Division and the Criminal Justice Collaborating Council (CJCC) continue to adapt and show flexibility with operations under the pandemic. It has been a busy month with activities and progress towards goals. Overall, no budget or personnel issues to report.

New or meaningful changes in the last month include:

- Submitted State Treatment Alternatives and Diversion (TAD) grant renewal application for 2021 for \$99,566. This is the last year of the non-competitive TAD grant funding that supports our Treatment Opportunity Program (TOP) and criminal justice assessment protocol. In 2022, TAD grant will be competitive under a 4-year cycle to better align with the state biennium.
- Family Treatment Court and Treatment Court sessions are continuing virtually. Remote training was held with both treatment court teams which covered state and national standards. Training is critical to program outcomes in these evidenced-based models.
- Family Treatment Court held its first graduation in September. Both parents who participated in the program were permanently reunified with their child. A press release went out highlighting Dunn County Family Treatment Court's one year of operations and celebration of our first graduation.
- Sequential Intercept Mapping (SIM) workshop to map the intersections of the behavioral health and criminal justice systems was completed in August. Attendees prioritized housing and access to crisis beds as top concerns then developed recommendations for action steps. A final written report is forthcoming with additional recommendations. Special thanks to Chair Bartlett for participating.
- Currently, the CJCC is exploring two grant opportunities. State DHS has funding to support treatment as an alternative to incarceration. DOJ has emergency COVID funding for courts and law enforcement.
- CJCC work groups have been meeting virtually working towards 2021 goals with good participation.

Respectfully submitted,

Sara Benedict, Criminal Justice Coordinator

Good Morning Law and Judiciary Committee,

The budget for District Attorney, Victim/Witness and our grants accounts are in good shape. My Office is over in some line items (transcripts) but under in others, and currently has 35% of the budget remaining for 28% of the rest of the year. Given our increase in cases this year and I believe the additional disks we are receiving, our revenue for discovery (reports/disks) that we copy and distribute to defense attorneys has already exceeded ~\$2,000 over our budgeted amount and that is only for half of the year for public defender cases. My Office remains fully staffed and we've continued to have jury trials and we have many more jury trials scheduled through the remainder of the year.

I've been working with our State District Attorney I.T. and the County I.T. to see if my office can increase its ISP connectivity service to provide higher speeds for our internet. We could move to a fiber internet service that would increase our download speeds but that would come at an additional monthly cost. I am hoping the State I.T. will assume that cost, but I am still waiting to hear about that issue. We also have the problem that since we don't have the electronic storage capacity to store these videos, we still have to make disks and copy disks. 12 counties in the state have invested in a cloud based storage system but that comes at a cost to the law enforcement agencies. I am continuing to work on this issue and will likely be working on this for quite some time, but I'm hoping we can find a solution that will save law enforcement and my office a lot of time and money.

My Office also had some roof issues where rain was coming into this office in three different spots. Facilities was great and patched the problem and I'm hoping the Judicial Center roof will get some attention in the near future.

Please feel free to contact me if you have any questions or concerns.

Thank you,
Andrea

Marcie Rosas, Medical Examiner
Lynn Johnson, Deputy Medical Examiner

September 18, 2020

Good morning,

I am providing a short communication regarding the operations of the medical examiner's office, per Administrator Miller's request. Business continues as usual. There are no major surprises reflected in our budget.

I am pleased to report that Dunn Counties Covid-19 related death number still sits at zero. With that being said, the Covid-19 pandemic still effects our office daily. Lynn Johnson and I continue to work out of our home offices rather than at the Sheriff's Department. Keeping up with the ever-changing information and the necessity to communicate with both the EC and Dunn Health Departments, hospitals, medical providers, and funeral homes prove to be time consuming. Many of our programs including suicide, child and overdose death review have been put on hold due to Covid-19 related responsibilities taking precedence. This creates a backlog of reviews for all departments involved.

I may be facing increased staffing challenges due to the probability of one of my deputies needing to take a leave of absence. These temporary openings are extremely hard if not impossible to fill.

I would be happy to answer any questions or speak to any concerns during Monday evening's Judiciary and Law meeting.

Respectfully submitted,

Marcie Rosas

Katie,

I'm happy to report the Dunn County Jail staff and inmates are still Covid-19 free.

The count is running in the mid 90's now.

We continue to hold DOC inmates. I attended a bi monthly meeting with DOC and other counties that house DOC inmates. We all seem to be doing fine with them, no concerns.

The Kitchen Steamer System needs replacing as it is the original one. Cost ranges from \$8000.00 on up. This system runs the Steam Table which keeps the food at a regulated temperature for serving.

We have an RFP out for Mental Health and Phone.

Thank you,
Brenda
